

Concrete Cleaner

Featuring a Heavy-Gauge Steel Deck!

Works with Hot Water & Cold Water

10" Pneumatic Rear Wheels

Rated up to 4,000 PSI

Concrete Cleaner

Part Number	Deck Size	Deck Material	Frame	Handle	Rear Wheels	Casters
CC-DEL-24	24" Diameter	Heavy Gauge Steel	Ladder-Style	Detachable	10" Pneumatic	4" Rubber
CC-DEL-30	30" Diameter	Heavy Gauge Steel	Ladder-Style	Detachable	10" Pneumatic	4" Rubber

Key Features

The Steel Deck

- **Heavy Gauge Steel Deck.**
- **Ladder-Type Frame.**
- **Rubber Skirt under the cleaning deck.**
- **Powder-Coat Paint for durable and rust-resistant finish.**

The Handle

- **Detachable handle for compact storage and ease of transport.**
- **Powder-Coat Paint for durable and rust-resistant finish.**

The Trigger Gun

- **Mounted securely to the handle for comfortable and safe operation.**
- **Includes Standard Quick Coupler.**
- **Rated up to 4,000 PSI.**
- **Rated for Hot and Cold Water.**

The Wheels

- **10" Pneumatic Rear Wheels.**
- **4" Rubber Casters on Front.**

The CONCRETE CLEANER is an exceptional tool for cleaning large surfaces very quickly. The high pressure water is routed through the rubber hose to the swivel arm under the deck, where the water pressure spins the arm at very high speeds. The nozzles are angled precisely to give the right balance of cleaning power and motion for the cleaning arm. The spinning action quickly scours away stains and debris, and the rubber skirt contains the larger material that has been loosened safely under the steel deck.

The CONCRETE CLEANER gives you and your cleaning crew the edge when working on sidewalks, parking lots, gas stations, convenience stores, or other commercial property that needs to be cleaned on a regular basis.
